- Advanced feature of **Emailing Salary Slip**. The Salary Slip can be **emailed on a single click** to Single Employee or to Group of Selected Employees from the Employee's email address stored in Employee Master. This advanced feature helps to save the valuable time which may be wasted due to the tedious task of writing the email to each and every employee with an attachment of Salary Slip, which may also be prone to errors in an Organization where Employee strength is vast.

- **Generation of MIS Reports.** This feature enables to generate the various types of MIS Reports with multiple options. Divided into four important heads such as Employees, Deductee, Purchaser and Other Clients, there are various multiple Report Options enhancing the availability to get the specific Reports under each of the heads. In the case of Employee, one can get the multiple Reports such as **Branch wise, Department wise, Designation wise, City wise, PF Balance Report, Leave Summary Report, Employee ESIC Report** to name the few.
